PROFESSIONAL SUMMARY

Frontend Software Engineer with experience building scalable web applications, operational dashboards, and real-time data systems using React, TypeScript, and Firebase. Proven ability to develop responsive, user-focused solutions that improve reporting, workflow efficiency, and business operations. Passionate about leveraging technology to solve real-world challenges across industrial, educational, and enterprise environments.

KEY ACHIEVEMENTS

- AI Innovation: Built an AI-powered customer interaction platform using React, TypeScript, and Firebase.
- System Scale: Designed and implemented educational software supporting over 1,500 active users.
- Operational Impact: Developed a real-time incident reporting system with live synchronization capabilities.
- Enterprise Delivery: Delivered production-ready web solutions for automotive and operational organizations.

TECHNICAL SKILLS

- Frontend Technologies: React.js, TypeScript, JavaScript (ES6+), Next.js, Tailwind CSS, Vite
- Backend & Cloud: Firebase Authentication, Firestore, REST APIs, Real-Time Data Systems
- Development Tools: Git, GitHub, Docker, Postman, CI/CD
- Professional Practices: Responsive Design, Performance Optimization, Agile/Scrum, Component Architecture

PROFESSIONAL EXPERIENCE

Founder Frontend Engineer | PropertyPulse AI Feb 2026– Present

- Developing an AI-assisted customer interaction platform using React, TypeScript, and Firebase.
- Building responsive dashboards, conversational workflows, and real-time data interfaces while maintaining scalable frontend architecture.

Software Engineer | Katsina Security & Incident Reporting System Aug 2025 – Jan 2026

- Developed a real-time incident reporting and monitoring platform using React, TypeScript, Firebase Authentication, and Firestore.
- Implemented responsive dashboards and live synchronization workflows to maximize visibility.

Software Engineer | KSITM Virtual Learning & Collaboration Platform Jan 2025 – Jul 2025

- Built a web-based educational dashboard supporting over 1,500 users with seamless data workflows.
- Refactored legacy frontend modules into reusable React components to improve code maintainability.

Contract Software Engineer | KT Almadina Motors International Ltd Jun 2023 – Dec 2023

- Developed and maintained a responsive vehicle marketplace platform, significantly improving online customer engagement.
- Engineered advanced search and filtering functionality to optimize user vehicle discovery.

Contract Software Engineer | Agile Engineering & Technical Services Jan 2023 – May 2023

- Optimized browser rendering and asset delivery through lazy loading and code splitting, reducing page load times.

FEATURED PROJECTS

- PropertyPulse AI: AI-powered customer interaction platform built with React, TypeScript, Firebase, and OpenAI API.
- Katsina Security Platform: Real-time monitoring and threat reporting dashboard using React and Firestore.
- Smart Home Energy Dashboard: IoT monitoring dashboard tracking real-time utilities and energy metrics.
- Global Dine: Restaurant web platform featuring integrated multi-currency conversion workflows.

EDUCATION & CERTIFICATIONS

- Higher National Diploma in Software Engineering & Web Development | KSITM Institute of Technology (2025)
Graduated with Distinction | CGPA: 4.6/5.0
- Certifications: AI Master Certification (Microsoft & UNICEF) | Remote Proficiency Certification
